DETAILED ACTION

1. Claims 1-10 are pending in the application and are currently subject to restriction and an election requirement.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-8, drawn to an antibody.

Group II, claim(s) 9 and 10, drawn to a nucleic acid molecule and a cloning vehicle comprising said nucleic acid molecule.

3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The special technical feature of group I is making and using an antibody.

The special technical feature of group II is making and using a nucleic acid molecule and a cloning vehicle comprising said nucleic acid molecule.

Accordingly, groups I and II are not linked by the same or corresponding special technical feature so as to form a single general inventive concept. Moreover, PCT Rules 13.1 and 13.2 do not provide for a single general inventive concept comprising more than the first claimed product.

Art Unit: 1642

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
